# WYLIE'S HARDY PERENNIALS

Grown in  
the  
WYLIE  
NURSERIES  
for the  
Garden  
Lovers  
of  
America

THOMAS  
WYLIE  
SEATTLE, W.N.  
U. S. A.

# THE WYLIE NURSERIES

## *CLIMATE*

The Puget Sound Country of the State of Washington is wonderfully adapted to the growing of Perennials, and at the Wylie Nurseries many varieties not commonly grown elsewhere are successfully cultivated.

## *STURDY STOCK*

The upland location of the Nurseries produces the hardiest of plants which can be successfully transplanted almost anywhere. All plants listed in this catalogue have been transplanted at least twice and all are guaranteed to be strongly rooted, and with ordinary care will give excellent results the first season after planting, bearing in mind that from the beginning of October to the end of May are the most favorable times for planting.

## *EXPERIENCE*

I have been growing Perennials successfully for many years, and am continually endeavoring to procure new varieties which are put on the market after I am fully satisfied with their cultivation.

It is quite impossible to list every variety grown at the Nurseries, but I cordially invite correspondence, and if you will give me some indication of your requirements, I will let you know just what I can do for you.

## *SHRUBS AND ANNUALS*

In addition to this list of Hardy Perennials, I can also furnish a fine variety of Ornamental Shrubs of every description and in the Spring I can supply all varieties of Annuals and Bedding Plants.

## *PACKING*

All orders are dispatched at the earliest possible moment, if weather conditions allow of taking up plants, and the utmost care is exercised in packing to ensure the stock arriving in first class condition. Packing charges average about 10 per cent of the amount of the order.

## *VISITORS WELCOME*

Visitors are always welcome and all lovers of flowers will find the Wylie Nurseries well worth a visit. The entrance to the Nurseries is at 5138 Holly Street, just five minutes' walk from the Rainier cars, which come out from the city in half an hour. Automobiles can come out Rainier Boulevard, which is paved, to Holly Street, then drive two blocks east.

Yours very truly,  
THOMAS WYLIE.

<b>ASPHODELUS</b> (Asphodel) Tall spikes of white or yellow flowers in spring .....	.20	2.00
<b>ASTILBE</b> Very ornamental plants for the perennial border. spirea-like flowers in June, requiring lots of water.		
America, soft shade of lavender pink, 2 to 3 feet high.		
Rubens, bright rose pink, 18 inches high.		
Gladstone, creamy white, 15 inches.		
Peach Blossom, soft pink, 2 feet high.		
Hybrids, various shades.....	.30	3.00

## WYLIE'S HARDY PERENNIALS

	Each	Per doz.
<b>ASTERS</b> (Michaelmas Daisies) Autumn-flowering perennials, useful for bouquets and for planting in perennial border. Colors: White, pale blue, dark blue, lavender and pink.		
Amos Perry, pink, 4 feet.....	.20	2.00
Acris, lavender, blue, 2 feet.....	.20	2.00
Banty, purple, 4 feet.....	.20	2.00
Baldur, flesh, 3 feet.....	.20	2.00
Beauty of Castile, deep purple, 3 feet.....	.20	2.00
Beauty of Ronsdorf, lilac pink, 3 feet.....	.20	2.00
Climax, light lavender, 4 feet.....	.20	2.00
Ericoides, light blue, 4 feet.....	.20	2.00
Feltham Blue, bright blue, 4 feet.....	.20	2.00
Gorgeous, small pink, 4 feet.....	.20	2.00
Laavis Floribunda, light heliotrope, 4 feet.....	.20	2.00
Lill Fardell, clear pink, 4 feet.....	.20	2.00
Mrs. Bowman, pink, 3 feet.....	.20	2.00
Mrs. Perry (Improved) Rose, 3 feet.....	.20	2.00
Mrs. J. F. Rayner, large crimson, 5 feet.....	.20	2.00
Novelty, mauve, 2 feet.....	.20	2.00
Perry's Pink, reddish pink, 3 feet.....	.20	2.00
Robert Parker, lavender, 5 feet.....	.20	2.00
St. Egwin, soft pink, 3 feet.....	.20	2.00
Sub-coeruleus, bright mauve, 2 feet.....	.20	2.00
Tartaricum, very late, purple, 5 feet.....	.20	2.00
T. S. Ware, rosy lilac, 3 feet.....	.20	2.00
White Climax, 3 feet.....	.20	2.00
Wm. Bowman, large violet, late, 3 feet.....	.20	2.00
<b>AUBRIETIA</b> (Rock Cress) Spring-flowering plants suitable for rock work and borders, shades of purple and pink.....		
	.20	2.00
<b>BELLIS</b> (Daisy) Red, white and pink flowers in early spring.....		
	.10	1.00
<b>BETONICA GRANDIFLORA</b> (Betony) Upright spikes of pale pink flowers, in August 2 feet high.....		
	.20	2.00
<b>BOCCONIA CORDATA</b> (Plume Poppy) Handsome for grouping. The leaves are a soft, glaucous green, oval cordate in shape, edges lobed. The numerous flowers are in large terminal panicles of a soft creamy brown. It grows to a height of from 8 to 10 feet. Blooms in July and August.....		
	.20	2.00
<b>BOLTONIA</b> Similar to the perennial Asters, 5 feet high.		
Asteroides, white.....	.20	2.00
Latisquama, pink.....	.20	2.00

# WYLIE NURSERIES --- SEATTLE, U. S. A.

	Each	Per doz.
<b>BUPHTALMUM, SALICIFOLIA</b> (Yellow Oxeye) Yellow daisy, growing to a height of 2 feet, flowering in June.....	.20	2.00
<b>CALIMERIS INCISA</b> A small yellow daisy about 3 feet high, flowering in July .....	.20	2.00
<b>CAMASSIA</b> A bulbous plant, flowering in early spring. Tall spikes of starry flowers, 3 to 4 feet high. Very hardy.		
Esculenta, purplish blue .....	.10	1.00
Leichtlinii, cream color .....	.10	1.00
<b>CALLUNA</b> (Scotch Heather)		
Vulgaris, purple flowers in August; fine for massing in borders.		
Alba, white flowers, much rarer variety.....	.50 to	1.00
<b>CAMPANULAS</b> (Bell Flowers)		
Amabilis, dark blue, about 2 feet.		
Alarifolia, creamy white, 3 feet high.		
Bowles Hybrid (of Rotundifolia) An improved Scotch Hare Bell, taller spikes and longer flowers.		
Carpatica, Carpathian Hare Bell, blue, white, Ditton blue and Isabel; more compact and larger flowers.		
Eriocarpa, long tubes of purple flowers.		
Fragilis, bright blue flowers, trailing habit; good for rock work.		
Glomerata, large heads of deep purple flowers, 2 feet high.		
Grandis, soft shade of lavender blue on stiff erect spikes, 3 feet high; June and July.		
Lactiflora, strong growing erect species 4 feet high, rich lavender flowers in abundance.		
Medium (Canterbury Bells) Single blue, pink and white.		
Medium, Calycanthema (Cup and Saucer) Blue, pink and white.....		1.25
Persicfolia, the peach leaved campanula, erect spikes of large bells, blue or white flowering in June.		
Moerheimi, double variety of the above.		
Pilosa, similar to Eriocarpa.		
Pyramidalis (Chimney Bell Flower) 3 to 5 feet high. Flowers blue or white in July and August.		
Radeana Spikes of very rich purple in June. 15 inches high.		
Pusilla, shining green leaves, pale blue flowers, good for rock work.		
Rotundifolia (Scotch Hare Bell) "The Blue Bells of Scotland."		
All the above Campanulas 20c each or \$2.00 a dozen, except where noted.		
<b>CARNATIONS</b> Border varieties. I have these in a great variety of colors, ranging from pure white, yellow, apricot, scarlet, plum and maroon	.25	2.50
<b>CATANANCHE</b> (Blue Cupidone) Border plant about 2 feet high, blue flowers, very suitable for cutting in July and August.		
Bicolor, white variety.....	.20	2.00
Coerulea, blue .....	.20	2.00

# WYLIE'S HARDY PERENNIALS

*CAMPANULA MEDIUM (Canterbury Bells)*

	Each	Per doz.
<b>CASSIA MARYLANDICA</b> (Senna) Graceful plant 3 to 5 feet high, with pinnate leaves resembling acacia, small clusters of yellow flowers in autumn .....	.20	2.00

<b>Humboldt</b> Usually 4 to 5 feet high, large orange-red flowers, with small maroon spots .....	.50	
<b>Magnificum</b> , bright rosy flowers, richly spotted with purple.....	.50	

# WYLIE NURSERIES --- SEATTLE, U. S. A.

*When watering,  
water freely.  
Remember that the  
roots require  
moisture more than  
the foliage.*

*Remember that  
some plants die  
right down to the  
ground in Winter,  
but they will come  
up again in Spring.*

LUPINE

## GARDEN DESIGN

Design, line and form are fundamental to garden beauty that increases with age and never becomes stale. Design does not necessarily involve additional expense if employed in time—on the contrary, professionally prepared designs, more often than not, actually save money. In any case, a well-designed garden is a never-ending source of joy to its possessors and a valuable addition to their property. Furthermore, a garden made to accord with its surroundings, and bearing the touch of the skilled designer, never fails to add more to the value of a property than the sum spent in making it. There are many ways, from design to execution, in which I can be of service in making gardens. I am in a position to furnish complete plans and estimates for laying out anything from the smallest Garden to the largest Estate and can recommend expert Landscape Men whose work I know from many years of personal experience. I invite correspondence on matters relating to garden design and construction, which will be dealt with in an intelligent fashion by responsible people.
